Summary

I am currently a college student seeking an opportunity for a career path as a Software Engineer.

Experience

Partner

StartupGSU

Dec 2021 - Present (10 months +)

- Find young entrepreneurs and startup businesses who want their startups to be funded by the university.
- Built flyers and updated website information
- Encourages young adults to get a head start on their company and invest to what could be their future.
- Conducted interviews through individuals who applied for the fund

Web Development Intern at The Whatever Network

Atlanta Tech Village

Mar 2017 - Aug 2017 (6 months)

- Create web pages using HTML, CSS, and Javascript
- Work in teams to collaborate and create story boards for how each web page would be laid out.
- Web pages were created based on the startup's products and then presented to an audience.
